The Verdict of the People,

Aflame with significance and suggestion are nently they are a protest against radicalism.

Photograph at the postoffice at Washington, D. C. as second-class mall matter.

The voice that spoke on Tuesday was the second-class mall matter.

The voice that spoke on Tuesday was the voice of the American people, speaking not by caching and under the inducement of political organization. There was no coaching and little or no political organization. The Congressional campaign committee set up to lead the fight that has restored the balance in, and to compense.

The Rider on a Pale Horse is in command in Congress, did not have carfare. In the midst of the campaign it could not pay postage on its political literature. Its appeals for contributions brought a pittance. Men who ordinarily give to the party were bullied by the false cry that such contributions are dishonest, beyond your family of the contents as forforn. Your of looked upon the contest as forforn. Your of looked upon the con

one that stood out. Everything, even the war in Europe, broke for or under the sanctified steamroller that got in motion a year ago last March. Republicans in Congress voted with The Chicago gentleman who has learned to write the overwhelming majority, in which merged with his toes may be regarded as a four-handed legislative and executive power, born separately in the Constitution. Republican newspapers played the popular side, and piped in minor key when they spoke for their seemingly disthan Bill Sulzer. The Colonel has not yet claimed that integrated party. Opposition leadership was at sixes and sevens. Organization was impossible. But without organization, without defined leadership, without an issue that showed clear-cut above the confusion and the hurrah of false confidence and power insecure, without money to meet the legitimate needs of party campaigning, the people were forming themselves, forming themselves in companies, battalions, regiments, brigades, divisions, and corps for the battle of the ballots. Few politicians saw or sensed the great silent movement; both sides are astonished at the Congressional result. Senator Borah foresaw some of it when he said a year ago that the people would show the way back. President Wilson glimpsed it when he said it was time for a truce with industry and business. And if the President had put action behind his clear-sighted conviction the

The time is for a truce with, and for all of our people. They have wearied of tur-It looks as if the revolutionists in Mexico have moil and futility, wearied of politics that aligns decided to suspend operations until they can make and embitters the classes and denies opportunity to both, wearied of minor politics. They want a tariff not drawn to the political yardstick, but shaped in broad statesmanship to country, to meet the relentless competition of other great industrial powers. Down to the last worker they have felt the effect in pocket with a mass of other undigested legislation, was and is a threat to American initiative and

The administration will seek consolation re and assurance there, but the wise men in it will read true the story that lies in those

ORDERS TO OFFICERS.

Lieut. Commander H. C. Cocke, to command

Scientists to Hear Lectture.

What promises to be one of the most enjoyable as well as instructive lectures in the course of seven being given by the Christian Science churches of Washington this season will be given at Poll's Theater Sunday afternoon at 2.30 ¢ clock. This will be the second lecture of the course, and the speaker will be Hilss Knapp, C. S. B., a member of the board of lectureship of the First Church of Christ, Scientist, in Boston.
